A WORTHY CAUSE

Throughout history there have been bullies who put their own interests first, and inflict harm on others. Many who leave Jehovah's Witnesses quickly identify the Watch Tower Society as an organization that manifests these qualities. The Watchtower imposes mental and emotional abuse on any who choose to leave of their own free will through its cruel shunning policy, which tears families apart. AAWA believes that such damaging practices must not be allowed to continue.

A MISSION STATEMENT THAT WORKS

One of the things that makes AAWA so unique is its Mission Statement which defines precisely which of Watchtower's beliefs and practices are most damaging, and articulates the manner in which AAWA goes about its work of raising awareness. In particular, many of our volunteers and supporters have expressed approval of AAWA's religiously neutral stance. This approach means that AAWA's time and resources are not used in furtherance of any religious or philosophical viewpoint or agenda.

VOLUNTEERS WHO CARE

AAWA has over 200 volunteers (and growing) working around the globe. They are committed Individuals who give freely of their time, energy and skills to further AAWA's objectives. They are AAWA's most treasured resource, because without their hard work and personal sacrifice, AAWA would not be able to accomplish its work.

RAISING AWARENESS

AAWA has already had a small measure of success in spreading the word about harmful Watchtower practices online, but it has bigger ambitions. AAWA wants to spread its message throughout the world's media – reaching the largest possible audience.

WHAT AAWA NEEDS

AAWA is very grateful to those who kindly donate money to its cause via its website – www.AAWA.co. However, what AAWA appreciates most of all is volunteers who are willing to help make its vision a reality. If you feel you are able to assist AAWA either financially or with your time and skills, please visit our website. We are glad to have you with us!

Help us do something about Watchtower's most damaging policies...

- Shunning of former believers
- Mishandling of child abuse
- Mishandling of domestic abuse
- Stigmatization of higher education
- Ban on certain blood treatments

BRINGING AWARENESS TO THESE HARMFUL POLICIES IS THE FIRST STEP IN ENDING THEM.
